

Are You Prepared for the Winter Storm Season?

The National Oceanic and Atmospheric Administration (NOAA) is expecting a very wet winter with possible flooding. We know that choosing to live in areas with a history of weather-related issues and relative isolation from main population centers means we must be prepared to be on our own for up to several days. **Are you ready?**

- ❑ Go to www.smcalert.info and sign up to receive alerts on your cell phone and email. You will be notified quickly of tsunamis, floods, fires, road closures, mountain lion sightings, planned events with traffic disruptions, etc.
- ❑ Tune your portable and car radios to KHMB 1710 AM or KHMV 100.9 FM for emergency broadcasts from Montara to Tunitas Creek Road. For Pescadero, tune to 1680 AM. Assign a preset button for these stations. Get a NOAA weather radio (about \$30,) set it to KHB49 162.40 Mhz and have extra batteries.
- ❑ When roads are closed due to flooding, trees down or mudslides, you may need to leave your area by a different route than you are accustomed to. Learn these routes now, before you need them. Make arrangements to temporarily stay with family or friends should you need to evacuate your home.
- ❑ Always maintain at least a half a tank of gas in your vehicles.
- ❑ Maintain emergency supplies at home (*see back*)
- ❑ Maintain a “Go-Bag” near exit door or in your car (*see back*)

Homeowner Recommendations

- Fix leaks in ceilings/roofs or replace roof
- Seal foundation cracks with mortar or masonry caulking
- Clean gutters and drains
- Invest in a battery-powered sump pump
- Move expensive items to safer location
- Elevate furnaces/heaters 12in above highest known flood level
- Anchor fuel tanks so they won't float away
- Install French drains if you live on a slope
- Stock up on sandbags
- Take pictures of insurance policies for storage on cell phone

Emergency Supplies at Home
