### III. PLANNING ASSUMPTIONS

The following planning assumptions have been used to develop this EF. If these assumptions are not valid for a specific event or circumstance, it will be necessary to modify the operational concepts and assigned responsibilities defined herein:

1. The primary and support agencies will have adequate personnel and equipment available at the time of EF activation to support emergency operations. If necessary, the agencies will implement their continuity of operations plans (COOP) to support emergency operations.
2. The equipment, systems, and supplies normally available to the primary and support agencies needed for emergency operations will remain functional and/or can be repaired on a timely basis to support the EF's operations.
3. Resources requested from mutual aid organizations and/or through the County EOC will be provided on a timely basis where needed in support of emergency operations.
4. The state, federal agencies, municipalities, and jurisdictions adjacent to the County will cooperate with the EF regarding information exchange and coordination of their emergency operations applicable to the EF.
5. Members of the affected public will receive emergency instructions regarding protective actions, business openings and closings, and other changes to normal daily conditions; and the public will endeavor to comply with such instructions to the best of its ability.

### IV. CONCEPT OF OPERATIONS

This section defines the concept of operations that will be used by the primary and support agencies to implement the EF at the time of a disaster. The concept of operations includes actions to be taken by the agencies responsible for the EF before the event, as well as during emergency-response and disaster-recovery periods. The concept of operations for the EF is applicable regardless of the scope, type, or duration of emergency. The concept of operations from both the San Mateo County Earthquake Donations Management Plan and the San Mateo County Volunteer Management Annex should be considered when reviewing the implementation of this EF.

#### A. General

1. This EF will be activated, staffed, and implemented by the primary and support agencies whenever directed to do so by the San Mateo OES and/or the unified command of the EOC. The primary agency may be directed to activate the EF prior to the onset of an emergency situation, immediately after its impact on the County, or at any time during the activation of the EOC. Once directed to activate the EOC, the primary agency is responsible for notification and mobilization of its personnel and resources, as they are needed, as well as for directing mobilization of the personnel and resources of designated support agencies.
2. Once activated, designated personnel from the primary agency will coordinate operations of the EF from its position in the EOC, where adequate communications

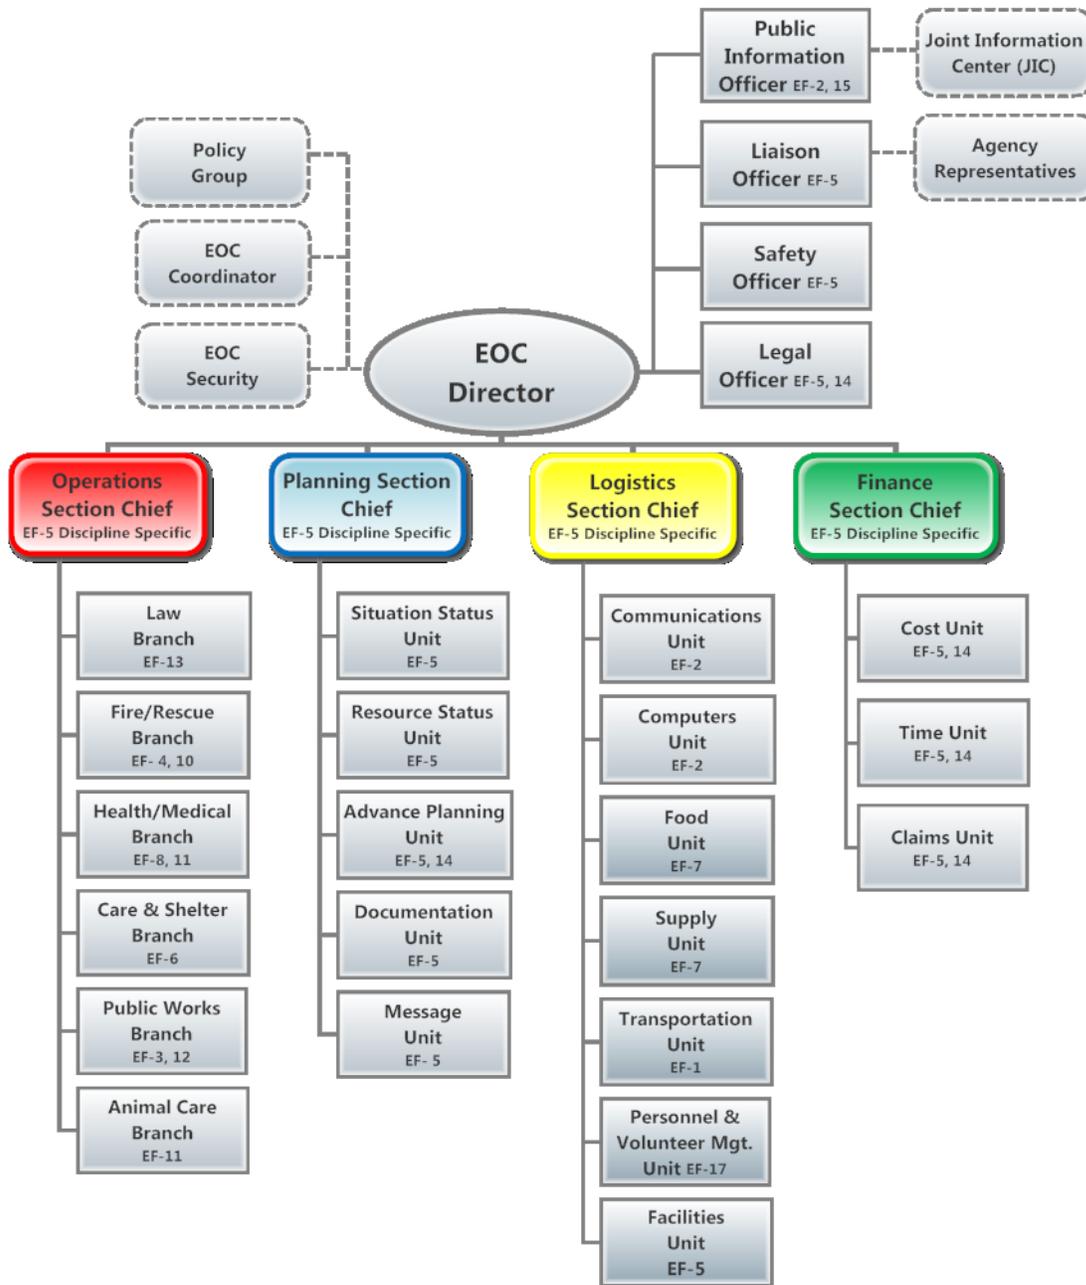

and data management systems are available. Coordination of the EF operations from the EOC also will be used to ensure the coordination of all EF operations with emergency actions being taken by other EFs and the County EOC. Operational coordination by the primary agency will continue from the San Mateo EOC until the EF is authorized to deactivate and terminate operations.

3. The San Mateo OES will activate the EF whenever the known or anticipated effects of the event require its services and capabilities.

## **B. Organization**

1. The position of this EF in the EOC organizational structure is depicted in the organization chart below. EF 17 is positioned under the Logistics Section in the EOC.
2. The San Mateo County Human Services Agency serves as the coordinator and facilitator of operations implemented by the EF and, in this capacity, is assisted by the designated support agencies. The primary agency will commit its own personnel, facilities, and resources to EF operations, requesting assistance from the designated support agencies when necessary.

The EF coordinator (or alternate coordinator at the time) is responsible for determining whether personnel from some or all of the support agencies should be notified and mobilized.
2. The primary agency maintains an up-to-date, 24-hour notification roster of its personnel assigned to this EF, as well as representatives of the support agencies. (This roster could be an attachment to the EF or maintained as a separate document because it will have home phone numbers and other private information).

## D. Emergency Operations

This section describes the emergency operations that may be required by the primary and support agencies to be prepared for EF activation, and for the operations to be implemented during the response-and-recovery phase. Actions to be taken for demobilization of the EF are also defined.

### 1. Pre-Event Preparedness

The EF coordinator has management oversight for the EF. To ensure readiness to activate the EF, the primary and support agencies will check that the following actions are taken prior to the onset of an emergency:

## 2. Response Operations

Response operations are conducted during an event, and are necessary to protect people, provide services to people harmed by the event, and mitigate further property or environmental damage, if feasible. Response operations for the EF are considered in two phases: (1) initial actions for the period when the EF is first activated; and (2) continuing actions that are to be implemented, as needed, during each EOC operational period for the response phase until the EF is able to transition to recovery operations. In all cases, the response operations are general guidelines for action and may be modified as needed to adjust to the particular circumstances of the situation. The phases of the response operations are described below:
